### Beautiful Barrington Tops Wilderness

Web ID:LAN

Beautiful Barrington Tops Wilderness

A unique opportunity to have your own piece of the magnificent Barrington Tops. This 231 Acre lightly wooded basalt country would be one of the most unique of its kind in the area. The 4-bedroom modern yurt style home takes complete advantage of all the magnificent views that the area can provide. The property has single phase electricity, telephone and septic. A large 3-bay shed with horse stables and lock up work area is also in excellent condition. The house will require some work to the roof due to water damage. The Purchaser will be compensated due to the reasonable asking price for this property. The property could comfortably carry 30 steers.
